

How to Draw Fynn the Standardbred

Some Standardbred horses pace. This means that their legs move together on the same side as lateral pairs not as diagonal pairs like other horses' do when they trot.

1. Start by sketching circles for Fynn's head and body. Sketch lines for legs, and mark with circles where the joints are. Add a triangular shape for each hoof.

2. Draw a shapely outline around your sketchy stick figure horse.

3.

Add a mane, tail and markings.

Go over your sketch with a felt tip pen and rub out all the sketchy lines.

Colour in your drawing and sign your name.
